

# VoIP

## Beat the competition.

Offer your subscribers the “Triple Play” today with KLiP’s

**quvo**<sup>®</sup>  
Quality Voice by KLiP

Our goal is to help you roll out self-branded telephony services to your customers quickly, seamlessly and without the high cost of operating a soft switch, termination network, back office and the support staff usually required to deliver this type of technology.

Let us help you eliminate the learning curve and time-to-market problems while delivering “Carrier Class” Voice over IP (VoIP) solutions that will help protect your embedded customer base. At KLiP we’re committed to your success and profitability.

Retain customers, increase revenue and remain competitive with telephone and satellite service providers. Our broadband quvo™ VoIP solutions are simple to use and cost effective to implement. Utilize the “Power of Bundling” to grow your business!
